Foolproof Hiring Strategies

The **Energy 900** cellular-rejuvenation system from Silhouet-Tone delivers three sources of noninvasive kinetic energy for visible results. The multitasking technology reduces fine lines and wrinkles, re-energizes cells, and addresses acne and hyperpigmentation. **800.361.3004, silhouet-tone.com**

Hand-hammered **copper pedicure bowls** from Spa Uniforms conduct heat to keep clients' feet comfortably warm during foot soaks and deluxe treatments. They're large enough to accommodate men's, size-13 feet. **800.772.1408, spauniforms.com**

The **Essie Winter 2010 Collection** from Essie Cosmetics features darkly decadent shades ranging from Smoking Hot, a textured gray, to Silken Cord, a risqué red. **800.232.1155, essie.com**

The **Matte Perfection Collection** from Murad contains four products designed to fight acne: Clarifying Cleanser, T-Zone Pore Refining Gel, Oil-Control Mattifier SPF 15 and Pomegranate Exfoliating Mask. **888.996.8723, murad.com**

The peptide matrixyl in Skin 2 Skin Care's **Anti-Sagging Renewal Serum** plumps skin and reduces the appearance of fine lines. **877.754.6790, skin2skincare.com**

Announcing the latest in hair removal technology, the **Depilar System** consists of two gels—the Inhibitor and the Activator—that are applied to clients' skin immediately after waxing or threading. System products break down the structure of hair-producing cells, preventing future hair growth. **818.641.1065, depilarsystem.com**

Take a snapshot underneath the skin's surface with Canfield Imaging Systems' **Reveal Imager**. The system captures reproducible, medical-quality impressions of the face—front, left and right views. **800.815.4330, canfieldsci.com**
