

DERMASCOPE

A man with short, graying hair, wearing a white lab coat and a blue tie, is shown in profile from the chest up. He is looking down into a white toilet with the lid up. The background is a plain, light-colored wall. The overall tone is clinical and somewhat humorous.

The Official Publication of Aesthetics International Association

results show the incidence of adverse events with Artefill compare favorably to the current label, and that the majority of patients (88 percent) reported a high satisfaction rating. Upon completion, this will be the largest and longest duration prospective U.S. clinical study of any dermal filler.

Announcements

Cristina Proano-Carrion C.H. Dip. Aroma. A native Ecuadorian, founded **Aromandina** with the purpose of providing high quality, therapeutic grade essential oils and aromatherapy blends designed to address health at ranges hard to reach by other means. Cristina has more than 14 years of experience formulating aromatherapy products for the spa, fitness, and the hospitality industry and speaking with North and South American audiences on television and radio as well as in seminars and workshops. www.aromandina.com

Recognized as a leading supplier of incomparable quality uniforms for the past 16 years in Europe, **Fashionizer Spa Uniforms** now launches in the U.S. market with its successful range of uniforms meticulously crafted of a proprietary exclusive organic fiber that ensures optimum therapist comfort with fully breathable fabrics.

To encourage recycling of **Depilar System** packaging, **Norlab U.S.A.** is offering customers a 10 percent discount on future orders to simply return empty, used packaging – shipping courtesy of the manufacturer. Norlab then recycles according to the highest standards, disassembling airless pumps, and separating various materials for sustainable recycling.

Following on the heels of its just-launched stock library of color cosmetics, **SeaCliff Beauty Packaging & Laboratories** is developing a stock line of skin care products. As with the stock library of color cosmetics, clients can opt to utilize the products for private labeling, or they can customize the products according to their own specifications, on the SeaCliff premises. Among the state-of-the-art skin care products available are serums, eye creams, moisturizers, cleansers, primers, and wrinkle-prevention creams enhanced with vitamin C.

Bio Jouvance, Paris is pleased to announce a new Canada wide partnership with **Raman Sekhon**, president and founder of **Kaura Distribution Inc.** in Toronto, Ontario. "Raman's appointment reflects our continuing commitment to deliver excellent customer service to our valued clients across the border," says **Sonia Boghosian**, President and CEO of Bio Jouvance, Paris.
